TEAM MESSAGE

The man who has confidence in himself gains the confidence of others. Pharma Ratan gained the confidence of Pharma Stakeholders over the time and organising 4th Pharma Ratan Award ceremony in a big way. Pharma Ratan is frontier award among global pharma stakeholders and uniting professionals and businessmen from across the world for personal, professional and social cause and its solution.

This time all pharmaceutical manufacturers association namely IDMA, FOPE, IPA, OPPI, CIPI, regulators associations such as AIDCOC, IPC and American Association of Pharmaceutical Scientists are invited in advance along with all pharma stakeholders from across the world. RDM has successfully organised series of three Pharma Ratan Award ceremonies and given recognition to global pharma stakeholders for their valuable contribution towards society. RDM has connected more than 30 countries.

Indian Pharmaceutical Industry is a global super power industry and its generic medicine is available on every pharmacy of the world. Indian is supplying 80% anti HIV medicine and 20% of overall demand of the world. America imports 40% medicine from India and England 25%. Other major importers are Africa, Europe, Asia, CIS and Russia.

Pharmaceutical industry is a slack free industry and producing huge employment world over. Indian Pharmaceutical Industry alone is providing approximately 10 million jobs across the world and can generate 5 million jobs more. To achieve this target there should be pharmacy policy and pharma policy in place in consultation with business community and academia.

RDM vision is to give confidence, commitment, quality and affordability to importers. RDM is giving assistance to importers for contract manufacturing outsourcing, quality check of medicine, payment dispute and timely delivery of goods. CQA (Commitment, Quality and Affordability) attracts importers and gives confidence for strong business relation.

Our vision is to assist manufacturers, distribution channels and regulators to resolve issues outside the court in case of non cognizable offence and in case of cognizable offence there should be heavy monetary penalty at least first time offender.

We are assisting job seekers to be a job creator and for this reason we are visiting colleges, universities for interaction with students and research scholars on regular basis. Our 1950's institutions like IIT, IIM and AIIMS are globally known for quality education. One pass out from IIT, IIM and AIIMS creates 100 jobs, then why not others institutions can follow them.

RDM is trying to connect industry with government regulatory agencies via Pharma Ratan Award Ceremony so that regulators can understand the need of industry and can facilitate industry accordingly. On the other hand industry should understand that stringent regulations and administration is need of the hour to provide safe medicine to the patient.

RDM is trying to connect industry with pharmacy colleges via Pharma Ratan Award Ceremony so that college can understand the need of industry and can educate students accordingly. On the other hand industry can utilise talent of researcher to innovate new molecule.

Innovation will go hand in hand when both industry and pharmacy colleges will join hands together. It is possible when pharmacy colleges will approach to pharma industry for commercially viable projects. It is possible when industrial training duration would be of at least 12 months. It is possible when pharmacy colleges will concentrate more on practical training.

We can resolve many issues when we meet and greet each other. Relation gives revenue, recognition, respect and resolve issues. Join us as volunteers to do something good for nation and this beautiful world.

Mohammad Shahbaz Alam
President, RDM

LEGACY OF PHARMA RATAN

This is in reference to the '4rd Annual Pharma Ratan Award' to be held at Crowne Plaza, New Delhi on November 25, 2019 and would be attended by leading national and international stake holders of pharmaceuticals and healthcare industries, specially regulatory agencies, manufacturers, exporters, importers, pharmacovigilance service providers, preclinical and clinical research organisation, academicians, research scientists, testing laboratories, formulation & development centres, media houses, social workers, hospitals, medical tourism companies, regulatory & legal consultancy.

Pharma Ratan conceptualized in Ukraine in 2015 while Mohammad Shahbaz Alam and his wife advocate Anita Shahbaz were on family trip. They first registered a national NGO "RDM" (Rab Di Meher) in 2015 and planned to launch Pharma Ratan Award. It started with 2 states of India, Bihar & Haryana and then reached to all states of India. Now expanded wings to more than 50 countries.

They realized that there is huge gap between pharma stake holders especially between manufacturers and facilitators (regulatory Agencies), manufacturers and industry people. In First Pharma Ratan Award in 2016, there was first public meeting of Dr.G.N.Singh, Drug Controller General of India. Later on assistant drug controller, deputy drug controller of CDSCO and state drug controllers of different states associated with RDM and they started attending Pharma Ratan Award ceremony every year. It is easy for both manufacturers and regulators to resolve the untouched issues when they meet and greet each and helps taking industry to global level to meet the global demand. For innovation industry-academia association means a lot.

RDM organized First Pharma Ratan Award ceremony on December 23, 2016 at India International Center, New Delhi, India. Dr.G.N.Singh, Drug Controller General of India was invited as chief guest and Hon. Satish Garg, Head Income Tax Appellant Tribunal, Government of India was guest of honour. Many eminent personalities from India and foreign countries attended this gala gathering award ceremony and name of those personalities are Dr.Y.K.Gupa, Dean AIIMS, New Delhi, D.C.Jain, Chairman AKUMS (largest Pharma manufacturer in Asia), R.C.Juneja, Chairman Mankind(5th largest Pharma Company), Moin Don, Father of Pharmacovigilance, B.R.Sikri, President FOPE, S.H.Ansari, Ex-Vice Chancellor Jamia Hamdard, Advocate Sushant Mahapatra, CEO Macecorp, Shirish K.Dabhade, former ADC, Mumbai, Alihussain Pradhan, MD Moraph Pharma, Tanzania, Zota Healthcare Ltd, Ultra Drugs, Sanify Healthcare, Poonam Gupta, Dr.Neha Raheja, Ankit Raheja, Dr.Zeenat Iqbal, Wasif Khan & Vijay Bhatti, Shaikh Aamir and Harshit Gupta to name a few.

India TV covered this event and Pharma Ratan 2016 was telecast as national news. Pharma Ratan 2016 event was a mega successful event. This event opened the door for all stake holders on global arena. Zee Business invited Mohammad Shahbaz Alam after this successful event to represent pharma industry for pharma policy 2017 along with Minister of Chemical & Fertilizer, Government of India and CMD of Medanta Dr.Naresh Trehan on 21 August 2017.
